Title: Understanding NBS style specifications

Duration: ½ day, 9.00am-1.00pm

Detailed Description

Understanding NBS style specifications

Love them or hate them, but do they effectively communicate what you want to happen on your project? Increasingly, non relevant clauses litter our specifications, potentially causing confusion and ultimately meaning, you don't get what you thought you asked for on site.

This seminar will take you through both poor and good examples of NBS style specifications to demonstrate it's all in the communication!

Suitable for:

Suitable for building and heritage professionals such as architects, surveyors or planners.

This seminar would also be of interest to building contractors and those responsible for maintenance works to traditional buildings or those considering a renovation or conversion project.

We are always happy to help learners choose the right course. Please contact us if you would like to discuss which course is suitable for you.
